To whom it may concern:

It is my pleasure to recommend Jerry Janes as a distance education instructor.

Jerry Janes currently teaches the Spanish curriculum via distance education to students in the Armour High School. In all dealings with Mr. Janes I have found him to be very professional to work with. He is a very dedicated educator.

He possesses the skills necessary to be successful in a distance delivery format. He is very well organized. He is very comfortable in front of the camera and very confident in himself and his teaching. This is very evident to the students. Mr. Janes delivery is clean and easy to follow. In addition, his command of the classroom is very good, especially considering the format.

I am very pleased with Mr. Janes as an instructor. I have no reservations in recommending him very strongly for this position.

Sincerely,

Brad Preheim
