

Computer Science Webquest Checklist:

1) Choose your topic from the online list. Get it pre-approved by Mr. Janes if it is different than ones provided.

2) Research your topic using **ONLY** the websites linked on the web page (wikipedia, webopedia, computerhistory.org)

3) Create a PowerPoint presentation including:

- Major components of the computer (think peripherals! Input and output devices!) and how they work.
- Regarding YOUR topic, current methods people use with technology.
- Regarding YOUR topic, describe how computers change the ways in which people live, work, and communicate using computers.
- Finally, regarding YOUR topic, list some benefits and potential harmful effects computers may have on society.

4) Be sure to *back up your claims*.

- Do NOT copy and paste information from the Internet.
- What you say must be in YOUR own words.
- How?

1. Read the information.
2. Think about it.
3. Then reflect on it in your presentation.

If you read and thought about it, what you write will be YOUR summary.

Save PowerPoint as "webquest" in your Multimedia folder
