

Challenge!

Download and save the [Sample PowerPoint](#) presentation to your PowerPoint folder to complete this Challenge.

Need help? [How to Download a File](#)

1. Open the **Sample PowerPoint** presentation.
2. Apply a different **Slide Design** to all slides – You may apply a different one per slide.
3. In the first slide, make the title (Container Gardening) into a **Hyperlink** that links to this URL:
<http://www.gardenguides.com/685-guide-container-gardening.html>
4. In the fourth slide, add a **Custom Animation Effect** to the photograph of the flower pots: **Entrance > Pinwheel** (you might have to look under More Effects)
5. In the seventh slide, convert the title (Maintenance) into **WordArt** that fits the slide's design.
6. In the eighth slide, **Customize the Bullets**. Make sure the bullets are DIFFERENT at the different levels.
7. In the tenth slide, insert **Clip Art** (from any Collection) that relates to the topic of that slide (think!). Format the elements on the page so nothing is covering anything else.
8. Add **Transitions** between every slide.
9. Set the timing for the presentation so that each slide automatically advances after two (2) seconds.
10. **Set Up Show** so your presentation **Loops Continuously**
11. Save and then close the presentation.
